

The perfect air conditioner for the smallest spaces in your home.

Wall-mounted FZ Super-compact
Inverter · R32 Refrigerant

www.aircon.panasonic.eu

1 New super-compact design

The new FZ has a width of just 779mm. This allows for more installation possibilities, including the limiting space above a door.

2 PM2,5

Particulate matter (PM2,5) can be found suspended in the air, including dust, dirt, smoke and liquid droplets. The filter can catch PM2,5 particles including hazardous pollutants as well as house dust and pollen and it is able to maintain clean the air of the room.

3 More comfort with Aerowings

To increase comfort level, UZ indoor units include Aerowings.

Superior airflow control.

Aerowings features two independent blades that give you more control over the direction of the airflow. Without Aerowings, with direct airflow, the target never changes, so you can easily begin to feel too cold as you are subjected to the continuous icy blast.

4 Optional WLAN compatible with Voice Assistant

With optional CZ-TACG1 and Panasonic Comfort Cloud app in your Smartphone manage all functions up to 200 units, have access to energy statistics, set up advance scheduling and define different access rights to other users. This works with Google Assistant and Amazon Alexa.*
